

Oregon Health Plan (OHP) serves the people of Oregon who are accepted in the Plan. OHP handles applications and sets benefits for members. OHP is paid for by federal and state taxes with the amount decided by the Oregon state legislature.

When OHP assigns you to CareOregon, we become your partners in good health. We can help you find a provider, understand your benefits and get the most from your plan. Just call us.

CareOregon has a provider network of 33 hospitals, thousands of clinics and pharmacies in 17 counties around the state. We work with you to build a team – your provider, pharmacist and all of us at CareOregon – and to get you high quality care to meet your needs.
