Vision Care-

For OHP

Routine vision care benefit (to determine if member needs glasses or contacts) is limited to members less than 21yrs old, pregnant adults.

- For qualifying members in Tillamook and Lincoln counties community providers submit claims to CareOregon and are paid without authorization. If glasses are needed they are obtained through the provider’s office or SWEEP optical.
- For qualifying members in all other counties, the OHP vision benefit is managed by VSP. Questions and authorizations can be obtained by contacting VSP at 1-800-852-7600.
- OHP limits glasses to 1 pair every 24 months

Medical eye exams are to diagnose and treat diseases and conditions of the eye. These services are not part of the VSP contract and providers should follow processes within this document to identify services requiring authorization.

For Medicare

Medicare covers the diagnosis and treatment of diseases and conditions of the eye, including an annual glaucoma screening exam. These services can be provided by providers not contracted with VSP and they do not require prior authorization. Examples include: flashes of light, double vision, seeing spots of ghost-like images, dry or watery eyes, unusual difficulty adjusting to dark rooms, conjunctivitis, cataracts, etc.

Medicare also covers one pair of eyeglasses or contact lenses only after cataract surgery. No authorization is required for both contracted and non-contracted providers; the claim is submitted to CareOregon Advantage.

Routine vision services, including glasses, are contracted to and managed by Vision Services Plan (VSP). They can be reached at 1-800-852-7600. Routine vision services are an “add on” and not typically covered by Medicare. They are an extra benefit offered to CareOregon

Advantage members. Examples of routine vision are: near-sightedness, astigmatism and other conditions that indicate the need for glasses or contact lenses.
