

DME MODIFIER LIST

Effective for dates of service beginning 1/1/13, the CareOregon modifier list should NOT be used.

Rationale – some of the HCPCS codes in the list are no longer valid. Since codes and modifiers undergo changes quarterly, CareOregon has decided that the most accurate list that we and our providers should use is the following:

- For Medicare members (CareOregon Advantage) – follow the CMS guidelines for modifiers.
- For Oregon Health Plan members – follow the DMAP guidelines for modifiers.

Advantage and OHP Modifier List
01/01/2010 – retired 12/31/2012

NOTE: For the HCPCS listed below, the correct modifier is required for authorization and claims submittal when applicable. For HCPCS codes not listed, if a modifier is associated with the code, the modifier must be included in the authorization request and submitted with the claim for correct claim processing. This is not a full list of all HCPCS codes, only the most frequently used ones.

***(NU) is required for CareOregon Advantage (Medicare) only.**

- If an HCPCS code allows NU, RA, RB or RR, use modifier that applies to situation.
- If NU is only listed for the HCPCS code, enter NU.

MS = maintenance and service fee for reasonable and necessary parts and labor which are not covered under any manufacturer or supplier warranty

NU = new equipment (CareOregon Advantage only)

QE = oxygen is <1 LPM (CareOregon Advantage only)

QF = oxygen is >4 LPM + portable O2 (CareOregon Advantage only)

QG = oxygen is >4 LPM (CareOregon Advantage only)

RA = replacement of a DME item

RB = replacement of a part of DME furnished as part of a repair

RR = rental of DME equipment
