

Tillamook County Community Advisory Council

Wednesday, June 9, 2021 3:00 -5:00pm

AGENDA ITEMS:

Meeting called to order at 3:01pm by Chair. We approved minutes and agenda.

Equity Learning Theme: Health Data: Heather presented local county health data, with a focus on vaccine equity and chronic health conditions such as diabetes and asthma.

RHIP Annual Update review: Reviewed the final draft of the RHIP and our progress, and how we are aligned to the SHIP (State Health Improvement Plan). We looked at what has changed over the past year, how COVID has shaped our work, and some new strategies.

IA Update: Joell COVID updates, particularly on risk rates and vaccination. We are dealing with two pandemics: one in the vaccinated population that's going away, and one in the unvaccinated population that is raging. Oregon has the 3rd lowest case rate and the 5th lowest death rate, thanks to safety measures.

Community Check-in: Heather went over CAC demographics survey info; we adjourned early to allow time to fill out the survey and do Rapid Feedback. Next month we will be using our new Zoom platform.

Meeting ended at 4:32pm. **Next meeting is July 14, 2021 from 3-5pm**
