

Get to know **ALL** of your benefits

## Focus: Tools to help you stop smoking

**Stopping tobacco use — including smoking cigarettes, using e-cigarettes and chewing tobacco — is one of the best steps you can take toward better health.**

24 hours after you stop smoking, your chance of heart attack goes down.

In the first year, oral health improves and you have fewer symptoms of gum disease.

Within months, your lungs are working better and improve your overall health.

After a year without smoking, you have half as much risk of heart disease.

**There are many ways to stop smoking, all fully covered:**

### Your care team

**Any provider — physical, mental or dental** — would be happy to help you stop smoking. They can help you find good, local programs that work for you and are fully covered. They can also help you decide which medication (such as a nicotine patch or gum) may be a good match for you.

### Oregon Tobacco Quit Line

The Quit Line is a **free counseling service** offered by phone and online chat. Get started at [quitnow.net/oregon](http://quitnow.net/oregon) or 800-QUIT-NOW (800-784-8669). This is a covered benefit you may use twice in a 12-month period.

### Smokefree.gov

**smokefree.gov** is a national program that offers various **tools to help you stop smoking**, including online chat and free, encouraging text messages. It's free to you. Visit the website and choose the service you want to try.

**You are more likely to successfully stop smoking if you get help. Using services and medication to stop smoking doubles your chances of being smoke free in the long term.**

## Questions?

If you have any questions about how to stop smoking, or need any other help, call CareOregon Customer Service at 800-224-4840 or TTY 711, or send us a secure message at [careoregon.org/portal](http://careoregon.org/portal)

## Get to know CareOregon

# Your health benefits are provided by CareOregon, your Medicaid health plan. Learn more about us here.

When people talk about Medicaid in Oregon, you may hear them say a lot of different names or letters. That's because there are many organizations involved in making sure you get the care you deserve. How can you make sense of it all?

## It helps to think of Medicaid in Oregon like a pyramid

**Oregon Health Authority (OHA)** runs the Medicaid program for the entire state of Oregon, which is called the Oregon Health Plan (OHP).

**Health Share of Oregon (HSO)** is what's called a coordinated care organization (CCO). Health Share of Oregon works under OHA to serve OHP members in the tri-county area.

**CareOregon** is one of several insurance providers in the tri-county area that help Health Share CCO deliver care. We also help coordinate health care benefits and services — like help to stop smoking — for our members.

**Your primary care provider (PCP)** might be a doctor, a nurse practitioner, a physician's assistant or a naturopath. They coordinate your care with CareOregon and other medical team members like dentists, mental health providers, pharmacists and others.

### CareOregon provides services like these for Medicaid (OHP) members:

- ▶ Physical health care
- ▶ Mental health care
- ▶ Substance use treatment
- ▶ Dental care
- ▶ Medicare through CareOregon Advantage
- ▶ Hospice and palliative care through Housecall Providers

### You'll also be able to use important services like these:

- ▶ Care coordination
- ▶ Pharmacy
- ▶ Prenatal and infant care
- ▶ Transportation options
- ▶ Language interpreter services
- ▶ ER and urgent care

You can get this in other languages, large print, braille or a format you prefer. You can also ask for an interpreter. This help is free. Call 800-224-4840 or TTY 711.
