

CareOregon and CareOregon Advantage No Authorization Required – CPT Code List

Archived November 15th, 2020

Revised October 15, 2020

ARCHIVED - NOT CURRENT

Please note:

- CPT code changes occur annually and occasionally throughout each year.
- It is important that provider offices determine authorization requirements based on current and valid codes in effect at the time the service is being requested, and provided.
- See **Authorization Overview** document for details regarding CareOregon's relationship to some of Oregon's Coordinated Care Organizations.
- Provider contracts may have different requirements than below. Please refer to your contract in addition to the details below for accurate requirements.

Instructions

1. Use this code list in conjunction with the **Authorization Guidelines** based on the member's primary coverage; CareOregon Advantage (COA) or CareOregon OHP.
2. This list only applies when the services are performed in following settings:
a) office, **b)** ancillary, **c)** ASC for ASC approved procedures, and **d)** facility day patient/surgery.

OHP members - additional instructions

- Procedures with a ✓ in the "MUST Pair Above the Line" column require the diagnosis and procedure code to pair above the line on OHA's prioritized list in order to be billed to a CareOregon Medicaid plan without an authorization.
- OHP's Prioritized List is maintained by OHA and applies to marked procedures being billed to a CareOregon Medicaid plan - Health Share of Oregon, Jackson Care Connect and Columbia Pacific CCO.
- Ophthalmology/Optomety specialty **MUST** be contracted for OHP payment, as stated in the CareOregon Utilization Management Procedure Handbook, available on the CareOregon website.
